Employment History

- 2020 –  **Postdoctoral Research Fellow** Technical University of Munich
- 2018 – 2020  **Research Fellow** University of Nottingham

Research Interests

My research focuses on decisions under uncertainty in individual and social contexts as well as the ensuing policy applications to high-risk decision areas such as medical decision making. I am also interested in the methodological challenges that underpin the elicitation of more accurate and replicable measures of subjective preferences, beliefs and tastes. I pursue these investigations through a mixture of lab, online and field experiments as well state of the art statistical modelling.

Education

- 2014 – 2019  **Ph.D., Economics** University of Nottingham, Nottingham.
Thesis title: *The description-experience gap in individual and social decisions under risk and uncertainty.*
- 2012 – 2013  **M.Sc. Economics** University of Amsterdam, Amsterdam.
- 2004 – 2009  **B.Sc. Business Administration** University of Piraeus, Athens.
